

Desktop MIC

MG-330

Tehnnical parameters:

- 1.Change energy mode: capacitor type
- 2.Frequency response : 100Hz-16KHz
- 3.Direction: cardioid
- 4.Output impedance:200Ω
- 5.Sensitivity: -42dB±2dB
- 6.Power supply(V): DC3V
- 8.Tube length : 415mm
- 9.Length: 10 meters, line configuration with single core, +6.35 mono in dragon mother card
- 10.Single microphone weight : 0.62KG
- 11.Output, indicating: imbalance, lamp holder, lamp
- 12.Switch : Mechanical locking
- 13.Anti mobile, electromagnetic, high frequency interference
