

SCD-120

Outdoor sounder with beacon

Description

The SCD-120 is a conventional sounder designed for using outside the buildings with a high power acoustic output and a beacon signal. Is compatible with Detnov's conventional control panels and addressable sounder modules MAD-43X, and with the majority of the conventional panels in the market.

The SCD-120 combines the acoustic and indicator parts in a single housing, and is activated with a single voltage input.

Features

- High sound power output
- Outdoor operation
- Selectable activation times

Applications

Within a fire protection system, alarm notification is the main function of the sounder.

Detnov's range of conventional sounders deliver an audible and/or visible notification, depending on the model, allowing the occupants of a building to be alerted of a fire or other type of emergency.

Technical features

Sounder		
	Operating voltage:	From 22 to 28 VCC
	Alarm current consumption at 24 V:	220 mA
	Volume at 1m:	105 dB
	Tone:	2.8 a 3.1 Hz ±3%
Connections		
	2 x 1,5 mm² twisted	
Environment		
	Operating temperature:	From -20°C to +60°C
	Relative humidity:	95% without condensation
	IP Index:	IP33
Physical features		
	Size:	297 mm x 210 mm x 75 mm
	Material:	ABS
